

## MMS Interdisciplinary Meetings

The Interdisciplinary Committee of the Mass Medical Society met on January 18, March 15, June 21 and September 20, 2011. Of interest to NECOEM was the letter sent to Senator Kerry from the Specialty Society Presidents, including Phil Adamo, concerning the efforts to repeal the SGR in the deficit reduction package. Further questions can be directed to Herb Hagele who was the 2011 representative on the interdisciplinary committee. At this time, there is no one from NECOEM on this committee for 2012. If you are interested please see Dianne Plantamura.
